**Workshops**

<b>With Leader</b>	<b>Beginners Calling Workshop:</b> Ever considered becoming a Caller? Have some experience already? Great! Just interested, come on in! Bring your dance collection to share and swap. Everyone, please come and dance at 2:00!
	<b>Square Roots:</b> Phil Jamison gives us the story behind the square dances and step dances of southern Appalachia, tracing these forms from their European, African American, and Native American roots to the modern day and challenging some of the common misconceptions that have long been associated with these Appalachian traditions.
	<b>Wake Up with Kerry McKenzie's morning yoga and sound vibrations</b> Kerry McKenzie will lead a sweet gentle yoga flow and take you into deep juicy stretches to warm up and lengthen the body. Also, during select times Kerry will play different healing instruments to enhance the vibration of energy.
<b>Community created</b>	<b>English:</b> AnneMarie Walter et. al. invite you to meet Contradance's smarter older brother. Vigorous, Flirtatious, Witty, Fun.
	<b>Outdoor snooze fest:</b> Both grown-ups and kids are welcome for a relaxing pillow pile up.
	<b>Fire Circle:</b> You know what to do around a campfire. We'll do that.
<b>Kids too!</b>	<b>Sunday Sing:</b> Come join for rounds and pub songs. Bring a song to share or to request.
	<b>Open Storytelling for All:</b> Sit back and listen or bring a story to share ( <b>Kids too!</b> )
	<b>Open Art:</b> Make banners, streamers, etc. for the Grand March
	<b>Dance for All- Contras and Mixers:</b> Everyone can succeed and be joyful with these easy, long time favorites. Come learn some traditional dances AND support the next generation.
	<b>Grand March and Contra:</b> Meet at 7:30 in front of Linden to Parade banners to the dance. <b>The Grand March and first 3 Contras of the night will be kid friendly</b>
	<b>Nature Themed Scavenger Hunt:</b> The children will be paired into teams (one older, one younger) and set to a nature themed scavenger hunt. We will establish boundaries within the camp and have emergency instructions for lost or injured campers (hence teams of older and younger). Children should have closed toed shoes and preferably long sleeved shirts and pants (bug spray and sunscreen will help also).
	<b>**Poor weather Plan** Object building using simple materials</b> If we have poor weather or conditions (rainy, muddy outside), we will instead use crat sticks, wooden blocks and plastic solo cups to construct different sculptures, structures. Again, teams will consist of both older and younger children and we will have some contests to determine such things as: the highest, the strongest, the most interesting, most unusual use or design and just have fun together building!
